Put down the razor and reach for the steam.

**INSTANTLY CHANGE THE WAY
YOU REMOVE WINDOW FILM,
VINYL WRAP AND LETTERING.**

WWW.STEAMBLADE.COM

**DO YOU FIND IT DIFFICULT AND TIME-CONSUMING TO REMOVE WINDOW FILM, VINYL WRAP AND LETTERING?
ARE YOU TURNING AWAY BUSINESS DUE TO THE DIFFICULTY OF REMOVING OLD FILM AND WRAP?**

Jiffy Steamer would like to introduce the SteamBlade. The SteamBlade is an innovative product designed to simplify the removal of adhesives like window film, vinyl wrap and lettering. With the swipe of the SteamBlade, the hot, moist steam quickly and safely unbinds glue from the surface, simplifying this once tedious task. The SteamBlade allows you to remove film, vinyl wrap and lettering in a fraction of the time of conventional methods.

PRODUCT

J-4000W SteamBlade

Quickly remove window film, vinyl wrap and lettering without chemicals, razor blades or the frustration commonly associated with this tedious task.

- Large 1 gallon internal water reservoir provides 2 hours of continuous steam before refilling
- Quick 15-minute heat-up time to PREHEAT mode, allowing you to maintain the steamer's temperature until you need it
- Go from PREHEAT mode to full STEAM power in just 2 minutes
- Easily view water levels and sediment buildup at a glance with the built-in sight gauge
- Flexible 7.5' hose for easy maneuverability on the job
- Angled 9" aluminum steam head concentrates steam into a targeted area for precise removal
- Steam-resistant nitrile gloves included with purchase
- Best in the industry 3-year warranty
- Manufactured in the U.S.A.

HOW IT WORKS

*Steam is hot. Please consult the owner's manual for product safety instructions before operating.

STEP ONE

Use a hard card (or razor) to get the film peeled away from the glass in a corner.

STEP TWO

Using protective gloves (supplied with SteamBlade), gently pull the film away from the window while directing the steam to either side of the adhesive film.

STEP THREE

Continue with this process until the entire window is free of film.

STEP FOUR

If needed, use the steam to heat up any residual adhesive remaining on the window and remove with a hard card.

WHAT CUSTOMERS ARE SAYING

"Jiffy Steamer is the designated supplier for tint world window film steam removal products. Tint World® is America's largest and fastest growing window tinting and automotive styling center franchise that has been installing and removing window film since 1982. So take it from the pros: if you want the best steamer then you must get a SteamBlade by Jiffy Steamer."

Charles J. Bonfiglio, *President and CEO*
Tint World
Weston, Florida

"Yesterday we did a film job, and we had a chance to use the new SteamBlade. Usually we will lose a job because of the old tint, but we shot them a good price, because of the steamer. It took us half the time it would normally take us. This product is great. The film comes off like butter."

Kenny Mayo, *Owner*
