

# How to Steam with Your Steamboard

Now you can use your Jiffy® Steamer to do more than remove wrinkles! The Steamboard provides you with a convenient workspace so that you may set pleats and creases easily. The board is ideal for home usage, clothing retailers and tailors.

The warm, moist steam combined with the touch of the steam head will allow you to remove wrinkles quickly and to crease garments easily in the safest, most efficient and gentle method available.

The Jiffy Steamboard may be temporarily mounted by hanging the board over a door with the enclosed bracket. It may also be mounted directly to the wall using the enclosed screws.

The Jiffy Steamboard includes an eyehook screw and our Professional Garment Hanger to hold your garments. The hanger design works with your Jiffy Steamer to prevent unsightly hanger marks and to facilitate the steaming process. It also incorporates a rubberized “skin” that prevents garments from sliding off of the hanger. Non-slip adjustable coated clips for pants and skirts are also included. The solid steel construction hanger will last you a lifetime.

Made in the USA Since 1940

# Mounting Your Steamboard

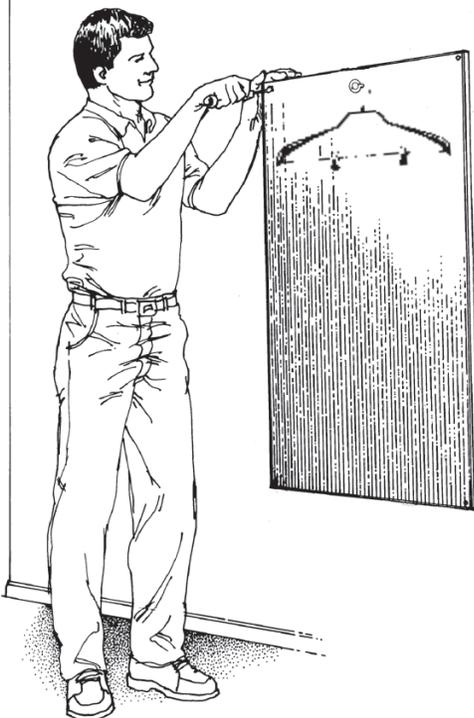

## Option 1

## Option 1 Door Bracket

Use the over-the-door bracket for convenience and versatility. The Steamboard can be left hanging or taken down and moved or stored.

## Option 2

## Option 2 Wall Attachment

Fasten the Steamboard to your wall for a permanent mounting. Use the two pre-drilled holes at the top of the board for an easy installation.

### Items Included:

- 1 x 24" by 48" Steamboard
- 1 x Over-the-door bracket
- 1 x Eye screw
- 1 x Professional Garment Hanger
- 5 x Rubber bumpers
- 5 x Screws for rubber bumpers
- 2 x Screws to mount board to wall
